# Why You *Must* Join CCA

## Duty - Unity - Pride

### ► DUTY

Theodore Roosevelt once said:

“All persons owe a part of their time and money to the business or industry in which they are engaged. No persons have a moral right to withhold their support from an organization that is striving to improve conditions within their sphere.”

The California Chiropractic Association is *the* state professional association representing the chiropractic profession to promote and protect your practice rights and the rights of your patients to access your care.

If not CCA, who do you choose to represent you?  
**It's the right thing to do.**

### ► UNITY

Doctors of chiropractic are among the most dedicated, caring and cost-effective professionals in the health care profession.

We urge all doctors of chiropractic in the state of California make the commitment to channel that dedication and care to fully unite behind the banner of the California Chiropractic Association. That unity will serve to further promote and protect the profession in order to realize CCA's mission of promoting high standards of professionalism and patient care through education, advocacy and accountability.

### ► PRIDE

Since the beginning of chiropractic, the profession has been battling an uniformed perception about the education and capabilities of doctors of chiropractic. Through CCA, we can educate and inform health care public policy decision-makers and the general public, your potential patients, that doctors of chiropractic are providers of first contact for wellness and the optimization of health.
