

**Hey Pilots,**

**Not a lot going on the last few days. So this is just a general update.**

**And so that I don't forget, the address for the website is:**

**<http://www.TCVSystems.com/HeloPilots>**

**and our CORRECT email address is: [Pilots@TCVSystems.com](mailto:Pilots@TCVSystems.com) (I sent this out wrong to the new members earlier this week. My bust.**

**I've renamed the site to be less egocentric. We are no longer Southern California and Affiliate Campuses . . . . It's now the "Silver State Helicopters Former Students' Support Group Website". Got rid of a typo and a naming convention error at the same time.**

**I was asked to archive the E-Blasts in .pdf (Adobe Acrobat) format for those who can't read the .doc (Microsoft Word) format. Consider it done. Now there will be .doc and .pdf archives of all blasts.**

**It was suggested that there is a need for a "Success Story" website on those of us who have been able to grab a hold of something in regards to additional training or resources of loans and / or grants. I will take that task on as well in the form of a new page on the site. Two, in fact. One for Success Stories and one for Potential Opportunities. Send them to me in Sound Bite Format (a quick two to three sentence blurb with contact details). First one going up is for all those helo mechs that supported us. BTW, why don't I have any of their contact info in the database? Anyone keeping in contact with our mechanics? Send me their info if you have it.**

**Also a few more media links. One from Kevin W. on the podcast of Berger's latest campus contact with Dallas that includes a good overview of the hearing in Vegas. The second link is a two minute newscast from Vegas**

**aired while we were all sitting in the hearing room. Nothing exciting, but a pretty good dig at JA.**

**Kevin also gave me corrected information for the March 12th Dallas teleconference audio archive playback (two hours sixteen minutes). Phone number (641) 715-3413 Access Code - 323990# Use this if the link to his podcast doesn't work. It's long, though. Over two and a half hours (I listed to the whole thing tonight).**

**A few bits of housekeeping:**

**1) I currently have Points of Contact for the following areas:**

**Arlington, Atlanta, Butte, CMA (Camarillo, CA), CNO (Chino, CA), Columbia, Dallas, Ft. Lauderdale, Glendale, Jacksonville, Lakeland, Las Vegas, LGB (Long Beach, CA) , Los Banos, Melbourne, Mesa, New Braunfels, New Windsor, Oakland, Ogden, Sacramento, Salem, SEE (Gillespie, San Diego, CA), St. Louis, Tacoma, Tulsa and Tuscon**

**What additional city campuses am I missing? Yes, you'd think that I'd know that, huh? I can use info on any missing cities and POC's.**

**2) I still have bad e-ddress for:**

**Nick Akl - San Diego area  
Craig Kyle - San Diego area  
Karl Fields - San Diego area  
Kyle Martin - San Diego area  
Rafael Perez - POC for Ft. Lauderdale  
Arron Tellers - Long Beach  
Nick Vega - Instructor from Long Beach  
Rick Yates - Long Beach**

**3) If you feel that your POC isn't getting information out to you and your fellow former students, let us know. Our goal is to make sure that everyone affected by the multiple ten's of thousands of dollars in debt burden be informed of all avenues of relief.**

**If you are receiving this Blast from me personally, it went out at around 7:45 p.m. PST Sunday. If your POC is resending it to you, it will have a different date/time stamp and may be surrounded by**

**> > >>> our**

**> > >>> favorite**

**> > >>> forward**

**> > >>> carets. Hallelujah if you are getting both.**

**It has been brought to our attention that some of the POC's are focusing on different agendas. If that is the case in your area, we can try to help. Keep the lines of communication open.**

**That's it for tonight. Thanks for reading to the end.**
